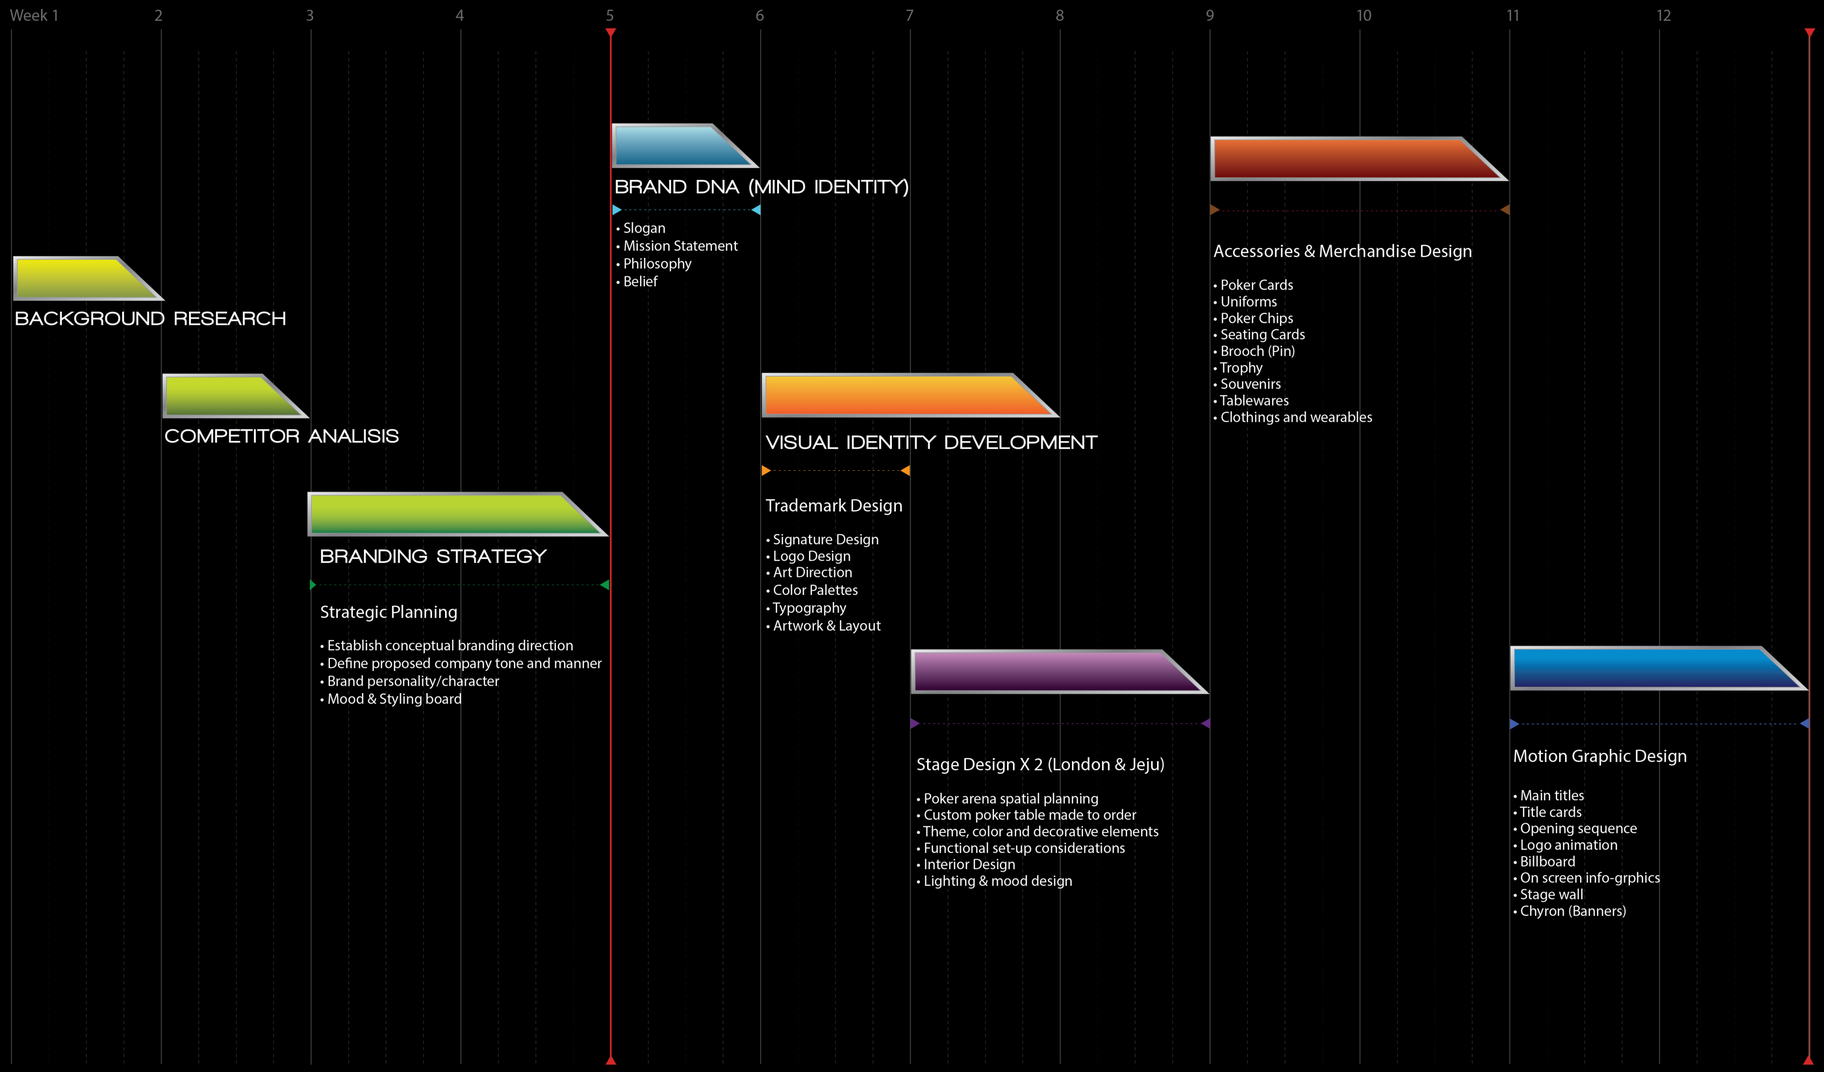
Deepstack Poker Brand Development Timeline

updated on: 100426



Week 1 : Background Research

A deeper research of the current market situation and audience tendencies,
Finding out the best approach to build the DNA and persona of the brand.

Week 2 : Competitor research

Study and compare the most popular poker brands in the market. Understand their brand positioning and structure, then develop the best way for own brand to compete, and explore uncharted territory.

Week 3-4 : Branding Strategies

- Establish conceptual branding direction.
- Define and Propose the new brand’s tone and manner.
- Develop brand personality.
- Design the mood & style of the new brand.
- Find out the USP of the brand, and turn it into a statement.

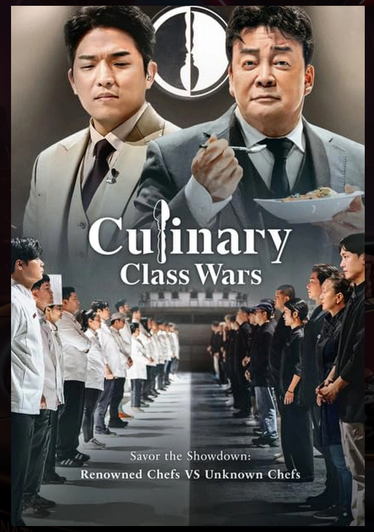
Week 3-4 : Branding Strategies

From seriousness to playful, somewhere in the middle or a mix of both.

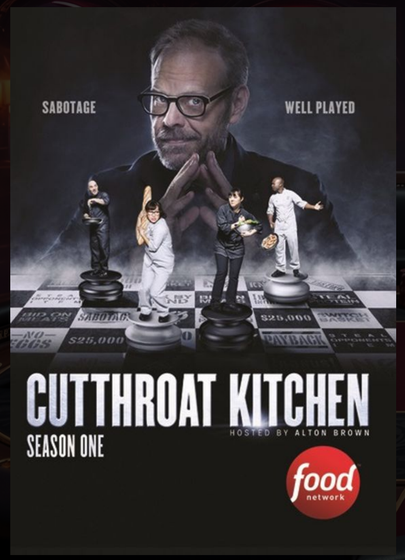
Tone & Manner : High quality, highly intense, maximum pressure, top requirements for final results.
Emotion response : Command the most respect from audience and provide intense excitement during the show.



Week 3-4 : Branding Strategies

From seriousness to playful, somewhere in the middle or a mix of both.

Except expecting the finest performance under extreme time pressure, some playfulness were added in for more fun factors, Providing extra entertain value for broader world of audience.



Week 3-4 : Branding Strategies

We will come up with an unique, respectful and exciting brand that will differentiate itself from the rest in the market. Basically there is no comparison because the composition of the brand DNA will be distinctive and never been seen before.

Entertaining factors - Interactions and chemistries between players, delivering dramas through Hollywood class cinematography and professional commentaries.

Biometric measurements - Allow audience to feel the pressure and psychological stats of the players in the moment, creating a heart-pounding emotional experience.

Educational - Inviting GTO pros to explain the math and logics behind selected hands played.

Interactive - Audience can participate through their phones in prediction games and lucky draw activities, making them feel more closely engaged with the game.

Week 5 : Brand story creation MI

Implementation of brand strategy and DNA in written statement that serves as a compass for the entire crew to follow.
It also acts as a promise to audience on what we are going to offer and deliver.

- Slogan
- Mission Statement
- Philosophy
- Belief

Week 6-8 : Trademark & Visual Identity Design

A crucial stage where we are going to turn all writings into visuals. Creating a symbol and visual language that represents the next era of poker live streaming, branding & entertaining brand that will dominate a territory in the poker and online world that no-one had reached before.

- Logo Design
- Signature Design
- Art Direction
- Color Palettes
- Typography
- Artwork & Layout

Week 7-9 : Poker Stage / Arena Design

After new logo signature has developed, full set of VI are getting mature on its way. It's time to apply the new identity to the actual stage for shooting that the viewers will mostly get in touch with visually, it's the backbone of the visual impression of the brand.

- Poker arena spatial planning
- Custom poker table made to order
- Theme, color and decorative elements
- Functional set-up considerations
- Interior design
- Lighting and mood design

Week 9-11 : Accessories & Merchandise Design

After the VI design is completed, we will start utilising the new identity to a vast scope of items, providing a full identity display online and offline for maximum brand impression.

- Poker playing cards
- Uniforms
- Poker chips
- Brooch
- Souvenirs
- Tablewares
- Clothings & wearables

Week 11-12 : Motion Graphics Creation

By creating our own set of motion graphics style and standards, we need to first dismantle the existing visual system
That our competitors are applying (mock up images)

Alternative brand name options

We are trying different approaches for the best name that is powerful and attractive enough to carry the brand's DNA

And we have come up with this…

THE
PRIME TABLE

True value of branding

Brand Value Assessment

Brand Strength

Differentiation
